

You've got to be on the SQUARE if you are going to build . . . and that's true whether it is a house or a business. Folks who think their customers are suckers don't last long. We know that is true . . . and that is just one of the many reasons why our policy has always been ON THE SQUARE!

## TORRANCE LUMBER CO.

Phone Torrance 61  
1752 Border Ave.—Torrance

NEWS BY HELICOPTER—With the week of Oct. 1 to 8 designated as National Newspaper Week, the first newspaper delivery by helicopter took place on the forward deck of the Holland-American steamship Nieuw Amsterdam. Crews of the Netherlands Seaman's Club visit the Seaman's Church Institute, which cares for thousands of merchant seamen.

## Oil and Gas Industry Getting Extra Share of Steel Output

In the first six months of 1948 the oil and gas industry which is striving to meet an unprecedented post-war demand, received, in the first half of this year for pipelines and other construction and for well drilling, slightly more than 2,000,000 tons of steel including the amount shipped to warehouses serving that industry. The tonnage was equal to 6.2 percent of total.

The automotive industry continued to hold first place among industrial consumers of steel. In the first half of this year more than 4,925,000 tons of steel went to the automotive field, excluding tractor firms. That was equal to 15.3 percent of total shipments.

The construction industry, including contractors' products and maintenance materials but excluding oil and gas industry construction, received more than 3,700,000 tons of steel in the first half of the current year, equal to 11.5 percent of total shipments.

Rail transportation received 2,535,000 tons in the first half of 1948, equal to 7.9 percent of

## Extra! Extra! Gold Ore Is Rediscovered!

Gold was "rediscovered" today, right in the heart of downtown Los Angeles!! Starting at 10 a.m. there will be gold mining operations in Pershing Square, and real gold dust, nuggets, free milling gold ore, and methods used 100 years ago in mining, will be shown.

It is all a part of the Centennial Commission's three weeks demonstration and exhibit of mining in the mother lode country, 100 years ago. There will be a \$50,000 exhibit of nuggets, gold flakes and "picture rock," Lloyd D. Mitchell, Southern California manager of the Commission reports.

The Pershing Square program is part of the three-year celebration running from 1948 to 1950 which the State Commission has planned. All events are designed to acquaint Californians, old and new, with the State's historical background.

Of all the things you wear, your expression is the most important.

## Industrialist Is Opposed to Proposition 15

"All business today is saddled with a heavy load of taxes said Berk Bannan, vice president of Western Gear Works, today. "Consequently," he continued, "an very much against any legislation which would increase the burden of taxes we now carry Proposition 15 would do just that."

He explained, "No business such as the fish canneries can continue to operate when half of its source of supply is cut off. That's what Proposition 15 would do. Then, with the fish canneries shut down, other businesses are going to have to make up the \$10,000,000 in taxes now paid by the fish canneries."

"Here's something else for voters to consider," Bannan added, "Knock out California's fourth largest industry and you affect the economy of the entire state, by reducing income, causing unemployment, increasing taxes, adding to relief rolls and boosting the cost of living."

## ? Steel Quiz ?

A score of 70 per cent or more on this quiz is above average.

- "Bloomers are (a) trousers worn by steelworkers; (b) small flowers used to detect gas; (c) heavy rolling mills. Select one.
- (a) Most; (b) many; (c) few industries received more steel in 1947 than in 1946. Select one.
- Despite the coal strike, steel production in the first six months of 1948 set a peacetime record. True or False?
- The accident frequency rate of the steel industry in 1947 was (a) very high; (b) average (c) the lowest in history. Select one.
- The use of stainless steel products has fallen off in recent years. True or False?
- Flourspar is (a) paint for furnace bottoms; (b) a mineral to aid in purifying molten steel; (c) a brace for floors. Select one.
- The steel industry is expanding more rapidly than the average of all other manufacturing and mining industries. True or False?
- Limestone is used in iron and steelmaking (a) for polishing; (b) as a slag forming material; (c) to break the lining out of a furnace. Select one.
- Kish is (a) bread product; (b) a special finish on hobby pin wires; (c) a powdered graphite that separates from carbon-rich molten iron in cooling. Select one.
- The capital investment of the steel industry is 5.1 billion dollars. True or False?
- (c). "Bloomers" are rolling mills which reduce ingots to blooms.
- (a). Most industries participated in the 14 million additional tons shipped in 1947.
- (c). True.
- (a). Steel's accident frequency rate was the lowest in history.
- (c). Last year, production of finished stainless steel products set a record of 235,000 net tons.
- (b). Flourspar is a mineral which makes slag more efficient in purifying steel.
- (c). True.
- (b). Limestone is used as a slag forming material.
- (c). Kish is an extremely fine powdered graphite.
- (a). True.
